ABOUT ME

I worked as a UI and Graphic Designer for the last 10 years. Last year, I fell in love with Front-end Development and since then, I worked to learn more and make me a competent professional. I'm looking for my first opportunity in the tech market, to contribute to the team and get a lot of experience.

I developed designs for brands around the world such as Sultan Tea UK (London, England), Tala Raassi (United States) YDAWI and LinkBuilding Estratega (Zaragoza, Espanha) and I want to use this experience in design on development.

PROJECTS

Second-Hand marketplace

The Second-Hand marketplace project is a used item marketplace.

User can search and negotiate items that he wants to buy, or register ads to sell items.

Used technologies:

- Next.js - Front-end, Back-end
- Mongo DB - Database

Live Demo:

<https://second-hand-marketplace.vercel.app/>

Repository:
